

Video Tribute Pricing

A Video Tribute can be created using all still photos, video, or a combination of both. After I receive your photos/video, I will discuss with you the theme of your event. I would be glad to share

with you, other video tributes I have created for other clients. Each one is unique.

I charge per photo or slide. My price is **\$3.00/photo** for unedited photos or slides. This includes removing red eye, time stamps, stains, etc.

If you provide digitized images not needed any editing then the cost is **\$2.00/photo**

This table will help in estimating the running time of your video.

100 Photos	4.2 minutes	7.5 minutes	10.8 minutes
150 Photos	6.25 minutes	11.25 minutes	16.25 minutes
200 Photos	8.3 minutes	15 minutes	21.7 minutes

A Ken Burns Effect (panning & zooming), fades, transitions & animations to bring life to your tribute.

Title pages, credits, and special messages all included.

I encourage clients to transfer video to a Flash Drive. Most clients watch the digitized videos on a computer, flat screen TV with USB port, or post it to social media. Digital downloads are available – no charge.
